

## On Innovations and Challenges in the field of Health and Quality of Life

The most interesting collaboration offers in one place and time

22 NOVEMBER – 03 DECEMBER 2021

(The hybrid event)

Life Science Open Space - The Open Innovation Forum is dedicated to people ready for cooperation and looking for partners to develop innovative ventures in various science and business fields but focused on health and quality of life.

BECAUSE INNOVATIONS ARE POSSIBLE THANKS TO COOPERATION!

Scientists, managers, entrepreneurs, experts in business development, doctors, investors and officials create the program and show how to cooperate. For all, LSOS becomes a platform that gathers potential partners in one place and time and enables the presentation of the collaboration opportunity offers! Do you have a business collaboration need or proposition? Then, LSOS'21 is the place to look for partners!

### # LSOS'21 MODULES to benefit from:

- **COOPERATION sessions**

Eight thematic and business sessions, offering ca 100 short (10 min) presentations on projects, technologies and solutions in the context of opportunities for cooperation (active 22-25.11.2021):

**THEMATIC:** involve expert panels, analyses, evaluations and trends, as well as 10-minute presentations of cooperation offers, projects and challenges:  
**HEALTH TECHNOLOGIES, DIGITAL HEALTH, BIOECONOMY, HEALTHY FOOD, BEAUTY & LIFESTYLE**

**BUSINESS:** involve meetings and discussions with experts and investors, accelerators and the industry, company presentations and startup pitching:  
**CAREER IN LIFE SCIENCES, BUSINESS DEVELOPMENT, STARTUP SCENE**

- **INSPIRATIONS session**

The networking meeting and afterparty on Kazimierz District in Krakow, where we are going to meet in person and release forces capable of moving intellectually and emotionally while serving foods and drinks with music and dance in the background;

**PARTNERING & MATCHMAKING**

An opportunity to virtually meet face to face with all registered participants of the # LSOS'21 (including speakers): potential partners, investors, users and employers or employees. The B2Match platform, supporting arrangement and execution of meetings, is available to registered participants for two weeks (active 22.11-03.12.2021);

**MARKETPLACE:**

An opportunity to present an individual offering of products and services. The offer will be visible on the # LSOS'21 event platform for 12 months and can be searched and viewed by targets not participating in the conference (active till Oct'2022);

**VIRTUAL BOOTHS:**

An opportunity to open your meeting room and invite stakeholders to private talks and presentations (option is available on request to Partners of LifeScience Krakow ).

**CLUSTER XCHANGE PROGRAM**

The ClusterXchange Program offers financial support for SMEs from the EU to visit LifeScience Krakow in conjunction with LSOS'21 and benefit from cross-sectoral and international cooperation, learning, and networking in the health sector. Visitors can meet businesses and organizations of choice from the LifeScience Krakow Cluster. For the details, go to the description of projects [CE4BIG](#) and [CELIS](#).
